

I have built up an extensive experience as an independent interior architect and designer and I can offer you the best value-added solutions in carrying out your projects, whether a private individual or a company.

As an interior architect and designer for over 35 years I have built up unique expertise in delivering excellence to a distinguished and demanding clientèle. Creativity and technical aspects are my favorite challenges. I love noble materials and high-quality standards. My projects and blue-chip technical plans will be the starting point of a perfect execution in which every detail has been carefully thought out. I am happy to be surrounded by a team of reliable professionals that I fully trust and whom I have worked with for a very long time. That combination of assets enables me to aim at first-class achievements.
